MOORE'S GOGO SHAMPOO WASH

THIS WASIL HAS PROVED IT: SLE TO BE THE BEST PREPARATION EVER PER-SENTED TO THE PUBLIC.

THE Bases of this compound is made of Gogo Root. The natives of the Phi lippine Islands never use anything else for washing their hair; you never see them bald, and it is quite common to see the females with hair from 5 to 6 feet long. By using this SHAMPOO WASH as directed, you will never be bald. The Proprietor offers the Wash to the public, being entirely confident that by its restorative properties it will surely arrest decaying heir, completely eradicate scurf, dandruff, and cure all diseases of the scalp; it does not contain any poisonous drugs, but, by its cooling properties allays the itching and fever of the scalp Mr. Moore has succeeded in being abl to put this Wash up in bottles without allowing it to ferment, and he will guarantee it to keep any length of time in any climate

Scandinavian shipping trade on the coast of China. The following is a translation of what our contemporary says :--Should this project, which is now being considered in Sweden, he developed, there is every chance that in a year or two the Swedish Norwegian flag, which, according to last year's statistics of the Maritime Cus toms, had but a small share in the coast shipping trade (total tonnage 8,708), will become a weighty factor in Chipa's chip. ping statistics, as was formerly the case. We learn from a reliable source that a Swedish shipmoster, well known in nautical circles in Shanghai, Mr Brissander, at present captain of the China Merchants atenmer Kungpai, has devised plans for stea mers, with the latest improvements, for the China coast trade. As is well known, the steamers, with very few exceptions, which go to Tientsin are, on account of their deep draught, totally unlitted for the trade. The plans of Captain Brissander, which are thoroughly approved by all who know about Buch matters here, include vessels of ve small draught, which at all times could go up the Peiho as far as Tientain, whatever the condition of the water was. The Captain has succeeded, in conjunction with the Swedish-Norwegian Consul in Shanghai, Mr Carl Bock, in inducing the Scandinavians in Shanghai to subscribe_a capital (grundkapital) of 100,000 kropa (about \$50,000.) The matter has been submitted

Co., at least one of the directors is heavily interested in the purchase. Plans for the construction of Wharf and the necessary alterations to the buildings have been made by Mesars Boyd & Co., Messrs, S. C. Farnham & Co. and Mr Samuel J. Morris, and we hear that the last-pamed gentleman's plans have been selected, and that the work will be taken in hand at once. Although the site is outside the harbour limits, it has such a good depth of water alongside the intended wharf, 28 feet, that it is an excellent place and if it is bonded, as it is believed will b the case, it will no doubt be very popular for kerosene oil and other heavy goods and is likely to soriously interfere with the wharves at present existing on the Pootun side of the river. Pootung is going ahead so fast that we shall before long hear o propositions for a swing bridge across the river from the English or French bund. perfectly feasible scheme. It is also reported that the China Merchants' Company urged to it by the very heavy tills for dockage which they pay annually, are con templating the construction of a dry dock on or near this site, land that they have already secured the necessary plans.

to which his attention was drawn. Mr Foster stated in his evidence that the dust box was a 3-dozen wine case and was paced at such a distance from the road that it could not be offensive to anyone. An inspector dame round about a fortnight ago with a list asking the people to aubacribe for a regulation dust bot and kis (Mr. Fester's) name and been put down for it, but the box had not been supplied. With regard to the buth water, the Surveyor General asked him to connect with the new drain that has been constructed to run down Aberdeon Road. He accordingly did so about a month ago, but the portion of the work to be carried out by the Surveyor General's department had not yet been done. The thing was as much a nuisance to witness is to abyone else. He requested Messrs Bird and Palmer vesterday to write to the Surveyor General asking him when he was going to connect the drains. Mr Germain, after hearing this statement, said he was not awars of the facts as stated by Mr Foster, but he did not wish to dispute them. Both cases were adjourned till riday forenoon.

THE TANK LANE MURDER. The further hearing of the charge against the three men Kwok Ming, Tong Sing and Tam theong, in connection with the recent marder in Tank Lane, was resumed at the Magistracy sto-day, before Mr Sercomba Smith Mr Decrys appeared for the prosecution, and Mr Webber defended the

first prisoner Kwok Ming. The case for the presention having been closed. Mr Webber said the defence for the first prisoner was that of an alibi for the purpose of proving which he proposed to call several witnesses

The following evidence was then given :-Li Akun, chair coolie, residing at 25 Ladder Street, said he rented a room from the first prisoner for 45 cents a month. On the day of the occurrence in question Kwok Aing, the first prisoner, came to witness' room at twelve noon and stayed for half an hour. He had not been out previous to that time. She had seen him and spoken to him in the house that morning. They had a conversation about their poverty and about riches. By Mr Dennys-I never saw the first prisoner before coming to Court to day. When I went to the lawyer's office I had not seen him. The disturbance went on for about a quarter of an hour, when the crowd went up the street fighting all the time. Afterwards I could not see what happened as they were too far away. I saw the third defendant just in front of my door. He was carrying a stick about five feet long. He was chasing some one. I saw him beating some one with the stick. He went with the crowd up the street. I went into the shop at a quarter to ten and saw nothing more of the fight.

Mr Wainewright-Not exactly by his desire: he entreated, implored me to pay them. I may as well explain how I came to make those psyments. I looked upon vances to Benjamin, who was down, and looked for the repayment of all of them, in the event of Benjamin picking up and ever becoming able to pay me. He had been fortunate and made money, and some the advances were made thinking he would be fortunate again. There was no kind of contract between us that I was to pay anything on his own account on of the Tla. 25,000. Every payment made to him was purely voluntarily. He used to talk to me and cay You won' let me starve, and I would say 'I'll always give you sufficient to buy your rice, and he still was a profitable client of mine infrom his mortgages, the Agra Bank especial ly, and therefore I could not refuse to give him a helping hand, and the larger payments I made for him were made in the hope that he would be enabled to make more money as he been a very auccessful speculator in his time I do not think there is anything else I have to add except that Mr. Benjamin's memory was an extremely accurate one: he had a very good mind indeed for figures and remembered details with remark. able exactness. That is all I have to say. I think. I may add, however, that I have received from the Agra Bank over Tla 3,800, and most of it was after 1983. Cross-examined by Mr Wilkinson:-Q.-

My expenses I find in this book put down lumped together at 8550 (Tis. 407) and I paid him Tla. 800. These are the disbursements. It was understood that the Tis 25,000 was for my own personal use and benefit, and the lawyer I employed in Hongkong should have been charged in addition, but I did not put it into the accounts. Q And you repaid the Charlered Bank out of your own money?

Mr. Wilkinson-What was the actual sum f money paid over by Sassoons? A. In cash to Benjamin Tla 45,000.

Q .- And what was the actual sum paid v Sassoon's on Bonjamin's account? A. I cannot tell you exactly. The agreement said they were to pay certain monics, but whether they have paid them or not, do not know.

Q.—Supposing they have been paid, what lope. was the amount they paid, and became liable to pay in cash? A. They became liable to pay in cash Tls. 75.000. They guaranteed the Bank

Q .- That is, they paid Tls. 45,000 in cash to Benjamin and became liable to pay Tla. 75.000 on his account? A .- That is about right, but Renjamin benefited in a third way. The Hongkong Bank's claim came down to Tis. 165,000, whereas a short time before they had written saving his debit balance was Tls.

Mr Wilkinson—I understand that neither you nor I wish to bring in any unnecessary A .- Yes, but His Lordship can look at

the agreement in.

His Lordship read the agreement, but no remarks thereon were made. Mr Wainewright - I understood the Hongkong Bank was induced to reduce their claim by a cash payment in settlement of an account. They had a great debit balance against Benjamin, more than heir securities would cover, and Sassoons guaranteed a certain amount to them, and Mr Sassoon being a Director of the Bank perhaps the Bank was lenient to them. do not think, in fact I am pretty sure, that Sassoons were not prepared for the case to go into Court. They would much rather it

did not and they settled it. Q.—They had some claims with the nnks—Oriental and Chartered? A. Ldo not remember, but there was great deal about opium, and I do not think hey wanted the case to go into Court. Q.—But all Benjamin got was a reduction his account at the banks?

A .- The banks agreed. Q.—And the amount paid by Sassoon was Tls. 120,000 / A. Yes Tls. 75,000 and Tls. 45,000 These were the actual sums they became liable to pay by at once putting their hand into their pockets but there was the arrangements they had to make with the

with a great deal of trouble. It would be difficult for me to to it. because there are a r great number of altendances and appointments I never entered at all in connection with this matter Benjamin and others came to me daily for a long time, and I had a clerk in his office for months copying documents. I do not suprose it would be anything like Tls. 75,000, but I would not do it again for less: I know that. O .- Don't vou think you would do it for Tis. 20,000 ?

A.—No. I would not, but practically did not get more than Tla. 20,000, becaus he nowowes me more than Tls. 4.000. Q.—You say that prior to this Benjamin was indebted to you in the sum of about Tis. 4.000.

O .- During what time was that accumu-A .- It had been accumulating since about the end of July 1883. Q.—Did you on the 21st August 1883 receive a cheque from Benjamin for Tis. 689 in payment of balance of your account to 30th June, and on the same day a cheque

I presume he intends to include it all, but I cannot speak with my precision about it Q.—Was it sitorwards you actually received the Tla. 45,000 that the agreement

for the Tis. 25 000 was signed! A. I think it was before I got it. Q. But it was the same day? A .- Yes, it was the same day. It took th m a long time to find the notes. They had to collect them, and it was no easy

Q.—Don't you think the large proportion the difference between Tls. 4.000 for six years work and Tla. 25.000 six months' work is rather great ?

A .- It was quite different work. There is no comparison. It does not stand on the same footing. I run risks, make journeys. and involve myself in an unknown amount of trouble and work in pressing a claim of Tis. 200,000. I do not think Tis. 25,000 is at all out of the way for the salvage on such an amount. It was not ordinary work, and I would not do it again for the same amount of money. I had a most to carry a revolver in Hongkong. Captain Law had one, fearing he would be carried off. Q.-And had you one also?
